(75) Inventor/Applicant (for US only): STANFORD, Frantz, D. [US/US]; 419 Jean Street, Madison, WI 53703 (US).

— without international search report and to be republished upon receipt of that report

(74) Agent: FORMAN, Adam, J.; Quarles & Brady LLP, 411 E. Wisconsin Avenue, Milwaukee, WI 53202 (US).

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: MECHANICAL LIFT MEASUREMENT SYSTEM

WO 2004/088134 A2

(57) Abstract: A lift measurement system is provided for determining a position of a load during a lift operation. The system includes a display that includes a scale and encloses a movable indicator that moves relative to the scale. A linkage is in communication with the load and the scale, such that movement of the load is translated to movement of the indicator relative to the scale to provide an indication of the position of the load. A plurality of displays and linkages may be installed at various load support zones such that the relative position of the corresponding indicators provides feedback related to the orientation of the load.
